An Impressive Spectacle.

[Greenville News.]

Sober people outside of South Carolina who have watched events here during the last three years have good reason to believe that this is a commonwealth inhabited entirely by maniacs and doubtless wonder if there are among us any sober, God-fearing, sane citizens. One day we have the whole country laughing at us; the next we have the world holding up its hands in horror at the fearful, black tracedies we contrive. Our politicians make us ridiculous before national conventions and in Washington; our governor amuses the country with Bombastes Furioso declamation and by carrying farcical cases to the grave presence of the Supreme Court; our Legislature enacts burlesque liquor and tax laws; our governor again starts the paragraphists with his journey in search of liquor for the State bar room. The following is going the rounds just now:

"WORKING A NEW GAME." Oue-Eyed Old Bum (to proprietor of big saloon)-My friend, as the Chief Executive of the great State of South Carolina. I have called in to sample your goods with a view to purchasing

a large stock of— Proprietor (kicking him out)—My friend, you're the thirteenth Governor of South Carolina since vesterday morning.-Chicago Tribune.

Then for the other side of the picture we have murders, conflicts of State and Federal authority, campaign meetings threatening wholesale slaughter, speakers driven from platforms and mob butcheries with the Governor of the State implicated. On the heels of it all, here is John J. Dargan in the Sumter Freeman accusing State Railroad Commissioner Thomas of being an assassin and a systematic 'swindler, fraud and cut-throat, and winding up with a deliberate insinuation that he murdered his second wife and a call on the grand jury to investigate the circomstances of her death.

This is horrible. It is a fitting development of the succession of contrasted absurdities and horrors we have been having the last three years. And it is all "reform"-all part of

the elevation and purification of our manners and morals so triumphantly begun in 1890.

With Crusty, Scaly Skin Disease. It Tormented Us All. Almost Drove My Wife Mad. Doctors and Medicines Failed. In-

of All by Cuticura.

Three years ago my wife, four little children, and myself were afflicted with a crusty, scaly disease of the skin. It tormented us all. Such a plague I hope will never again visit my family. My children's ages were respectively nine, seven, and four years, except the youngest, who was only two months old. Of all our suffering, my wife suffered the most. It almost drove her mad. The disease first made its appearance on my wife's back between the shoulders, and spread across to her breast. It looked like it was covered over with little scales. I first bought of a drug store medicine for skin disease, which failed to do any good whatever. I next employed a doctor who gave relief for a short while. After trying him for quite a while without effecting a cure, I called in another doctor who proved to do no better than the first. After this I bought CUTICURA REMEDIES of Messrs. Purcell, Ladd & Co., Richmond, Va., having read of them in a newspaper. Relief followed the first application, and five or six sets cured all of us. I do not know what the disease was we had, it affected us all alike, but I do know CUTICURA cured us of that skin disease. CUTICURA cured us of that skin disease.

The Register says the decision in the railroad tax cases is contrary to common sense, and suggests action to defeat it by "our own General Assembly," which the Register thinks would be "the more expeditions method of

A correspondent of the Pittsburgh (Pa.) Despatch makes this curious statement: "In Uruguay, some of the rivers are so impregnated with the roots of Sarsaparilla as to possess sanitary qualities for bathing purposes, and the people who drink their waters are said to be exempt from skin diseases arising from impurities of the blood." The Uruguay sarsaparilla is protably the same variety of plant as that of the neighboring state of Honduras, of which Ayer's Extract of Sarsaparida is made, and which is richest in medicinal qualities of any sarsaparilla root known to science; hence, of course, the extraordinary curative properties of Ayer's fa mous blood medicine.
